RKXO - A PRODUCT SUITED FOR HEAVY DUTY SANDING

RKXO is a Premium poly-cotton blend abrasive product.

GRAIN - ALUMINUM OXIDE/FRYABLE

BACKING - X-WEIGHT CLOTH, POLY COTTON BLEND

BONDING - RESIN OVER RESIN

COATING - OPEN

RKXO

RKXO is a poly-cotton blend used for heavy duty sanding. While coarser grits are best suited for stock removal, the finer grits are ideal for finishing of raw wood. This product provides an excellent finish.

APPLICATION:

HARDWOOD
SOFTWOOD
VENEER

ADVANTAGES:
HEAVY DUTY CLOTH BACKING
PREMIUM GRAIN
REDUCED CLOGGING
UNIVERSAL APPLICATION

UNEEDA

UNEEDA IN THE USA

ARKFO - A VERSATILE ABRASIVE PRODUCT FOR MOST TYPES OF WOOD

ARKFO - is a super premium Aluminum Oxide paper.

ARKFO is an anti-static material which produces excellent surface finishes.

GRAIN - ALUMINUM OXIDE

BONDING - RESIN/RESIN

BACKING - F-WEIGHT PAPER

COATING - OPEN COAT

ARKFO/ARKFEO

ARKFO/ARKFEO material was created with soft or resinous woods in mind. Soft woods have a high resin content, which leads to build up on abrasive material. For these woods, ARKFEO has been developed with an extra open coat. To get the best results from ARKFEO, a low sanding pressure should be applied. This will give a smoother finish, reduce stress on the abrasive material, and give an overall longer life of the product.

APPLICATION:

**HARDWOOD
SOFTWOOD
PARTICLE BOARD/MDF
LACQUER/SEALER**

ADVANTAGES:

**ANTISTATIC TECHNOLOGY
SUPERIOR FINISH
LONGER ABRASIVE LIFE
SELF SHARPENING GRAIN**

Ekasand non-vacuum sanders are available with a vinyl face pad for use with PSA (sticky back) or a Uneevel (hook & loop) pad. The air inlet is 1/4 National Pipe Thread.

They are long lasting, lightweight and produce minimal vibration. They are extremely durable featuring a lower profile with lower center of gravity for more stability during usage. Helping reduce operator fatigue, Ekasand Random Orbital Sander weighs in at 1.78 lbs., making it lighter weight than competition.
